## **Corps of Engineers announces new park names at Waco Lake**

With the opportunity presented by the pool raise currently in progress at Waco Lake, the U.S. Army Corps of Engineers has changed the names of several parks in the Speegleville area.

The name change came about because of confusion among park visitors and emergency response personnel associated with having three separate park areas named Speegleville. Emergency response personnel have been concerned about valuable time that has been lost in responding to emergencies.

Names have been changed as follows:

Speegleville I has been changed to Reynolds Creek Park  
Speegleville II Boat Ramp has been changed to Lacey Point Access Area  
The new campground located next to Speegleville Marina is now the Speegleville  
Campground  
Speegleville III will become Twin Bridges Day Use Area
